Fall-1917

MALONEY BROS
AND WELLS CO.
NURSERIES
DANSVILLE, N.Y.
To Our Patrons and Friends:

One of the greatest pleasures of this business is giving our friends, old and new, the latest Maloney Fall catalogue, for it means all who deal direct with us, the catalogue way, save at least 50 to 75% over buying the high priced antiquated agency way. All that is necessary is simply to make your selections from the catalogue and write your own order. The Maloney plan is a very simple, economical, common sense one.

We desire to extend our sincere thanks and appreciation for the patronage we were so generously favored with the past season. We want you to know that we wish to co-operate with you in every way so as to attain best possible results. It is imperative that you follow transplanting instructions carefully; subsequent results will prove the value of careful planting.

This is our own page, and we are writing just what we would say if we met each customer personally. The rest of the catalogue is made to have it convenient for you to make selection of your needs. This has been a great year for us, better than ever before—we are getting more customers all the time. Every one brings in two or three, and they are all welcome.

It certainly is most gratifying to read the many fine letters from our patrons; it surely stimulates us to go ahead and increase our plants, for we know our work is appreciated.

Did it ever occur to you what a benefit the Nurseries are to the United States? Just think how good orchards enchanche the value of farms and what a great improvement a few shrubs and ornamentals make to your home. Really these are required to bring out the full beauty of your home.

We want to be your merchant for supplying your trees and shrubs, just the same way as you have your grocer or your clothier whom you depend on. The latter part of July a gentleman from Clyde, Ohio called at our office and said he had bought of us for twenty-seven years—he further said, "It does seem good to be able to place my orders and know that I will get just what I order, as I do when I call up my grocer for flour, sugar or anything else." It's fine to have our patrons think of us just as our townspeople do.

We hope this has been a good year for you, and trust next year will be—it ought to be good for all of us, for it looks as if there would be a big demand for everything the fruit grower can produce.

How pleased we will be to have every one of our customers visit our Nurseries and extensive packing house sometime—you see we started with a plant of 3000 seedlings—now we have over 400 acres devoted to growing nursery stock. We want you to see this for we are justly proud of it—we want sometime to talk with you and tell you just how we made this big business.

If we can be of any assistance to you in any way, with advice or information, call on us; we'll co-operate with you—we place no limit on gratuitous service.

MALONEY BROS. & WELLS CO.
Fall Planting

It is now generally appreciated that Fall is an ideal time to plant. W. J. Maloney wishes to call your attention to the fact that subsequent results are most gratifying.

The setting out of stock at this particular time of the year is attended by the following advantages which are abundant proof that the fall of the year is an ideal period for planting.

First: The gain of fully half a growing season over spring planting.

Second: The uniform moisture and temperature of the ground are more favorable to root formation, the root action being well established long before the ground is fit for planting in early spring.

Third: Adverse conditions commonly prevailing in the spring, such as gardens to be made, usual and regular spring farm work, scarcity of labor, etc., are eliminated in the fall.

Fourth: We do not begin shipping until Oct. 10th. Mr. A. E. Maloney who superintends the growing, states that stock is then fully matured so as to withstand the winter weather without any protection.

Many of the largest orchardists are doing their planting in the fall and maintain they are having the best of success.

If you have never done any fall planting try it this season. The wise buyer orders early.

Upland Grown Trees Are Best For Planting

We claim and can prove to your satisfaction that our upland grown trees are bigger, hardier and more vigorous than those offered by others. We own our farms on which we propagate, the soil is specially fitted, it is loose and very fertile, roots penetrate deeply, develop extensively and are fine and fibrous—the richness of the soil fills them chuck full of vitality.

Read letter on opposite page telling the things about our business you ought to know: : : :
Why You Will Save Money When Buying Your Trees, Shrubs, Roses and Ornamentals This Fall

MR. Planter, do you know practically all the seedlings which the nurserymen of the United States use for propagation purposes are imported from England, Germany and France, and owing to the terrible war being carried on in these countries that the seedling production has been cut 50%? Therefore, since nurserymen all over this country have for the past two years been setting but 50% of their normal plant, that next year, 1918, will see a big advance in all kinds of nursery stock. Dear friends, these are the facts.

Inasmuch as it requires two years to develop nursery stock, the first light plant matures Fall 1918. We are acquainting our customers with existing conditions so that you may make your purchases at the normal prices and not put off buying another year.

We all know how other commodities have advanced, and you can readily see why nurserymen will have to advance their wares soon.

The wise buyer buys this Fall.

To Whom It May Concern

I have visited the farms, packing houses, nurseries and office of Maloney Bros. & Wells Co., and find the diagram appearing on this page is correct. I have known this firm for years, in fact, from their entrance into the nursery business, and have watched their wonderful and rapid advancement, which is largely due to their careful pains-taking attention, and believe it is generally understood they are New York State’s largest nurserymen.

It is with pleasure that I recommend them to the planter and fruit grower of the United States for I know when you purchase of Maloney Bros. & Wells Co., you are absolutely assured of a square deal.

Signed:—

JOSEPH STIEGLER,
Mayor of Dansville, N. Y.

No Member of This Firm Has Any Interest or Connection With Any Other Nursery Firm in Dansville, N. Y.
Maloneys Guarantee Absolute Satisfaction Or Refund Your Money

PEOPLE from all parts of the United States express their appreciation of Maloney way of dealing direct. We cut out all agents and middlemen, which means a saving to you of at least 50%. Maloneys try to give you the best service at the lowest possible cost—it is to our mutual advantage to furnish the best trees, deliver them promptly and in good condition. Furthermore, if anything arrives which is not satisfactory, we guarantee to replace it or refund your money without question—that’s why Maloneys have so many satisfied customers, a few of which are listed below.

Maloney Bros. & Wells Co.,
Dansville, N. Y.
Gentlemen:
The trees, etc., arrived the 22nd, and are in good condition. They are a nice lot of stock. Yours truly, T. H. Baker.

Faibury, Ill., June 5, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.
Gentlemen:
Trees, bushes, etc., reached me in good order and gave me perfect satisfaction. They had fine roots, I never saw more promising trees.
Mrs. A. H. Remington.
Maloney Bros. & Wells Co.,
Dansville, N. Y.
Gentlemen:
The trees arrived in fine shape and were the finest I ever bought. I have set about 200 in the last few years that I have had the farm. I can recommend your stock to any one.
Yours truly,
M. L. Wilson.

Bowdoinham, Me., April 24, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.
Gentlemen:
The apple trees, etc., that I ordered of you arrived O. K. and I am much pleased with them. They are as good, if not better, than I could buy from local agents for forty to sixty dollars per hundred. Hope to send you another order either this year or another spring.
Very truly yours,
Fred D. Heath.

Quaker City, Ohio, April 27, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.
Gentlemen:
Received my trees on the 24th in fine shape. They are the best that I ever bought.
Yours respectfully,
H. M. Smith.

Pequannock, N. Y., May 1, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.
Gentlemen:
Have received my order and must say I am pleased with both trees and service. I have recommended your firm to a number of people. With best wishes, I remain,
Yours truly,
Henry Wachtmann.

Union, N. Y., Nov. 6, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.
Gentlemen:
The nursery stock was received in due time and have them all planted. I wish to thank you for the prompt shipment and pains-taking in packing.
Yours truly,
Geo. E. Becker.

Maloney Bros. & Wells Co.,
Dansville, N. Y.
Gentlemen:
I have received all the goods in first class condition. Thanking you for the strong plants you have sent me, I am,
Yours truly,
Otto Woehr.

The Rural New Yorker Corrects An Erroneous Impression

The complaint of J. S. regarding nursery stock purchased from F. W. Wells Wholesale Nurseries, Dansville, N. Y., which appeared in the issue of October 14th has, it appears, done an injury to a very good and reliable nursery firm—Maloney Bros. & Wells Company. Some readers have assumed that Mr. F. W. Wells is connected with Maloney Bros. & Wells Company. This is not the case and we desire to correct the erroneous impression and do justice to the firm of Maloney Bros. & Wells Company, the record of which is clear.—Rural New Yorker, Nov. 11, 1916.

Maloney Trees Always Please
We have over 400 acres of nursery and grow our trees 1500 feet above sea level so they are hardy, healthy and vigorous. We cut our own scions for budding from trees of known merit, so that our trees are not only true to name but have superior fruiting habits.

Our Shipping Season usually opens here about the 10th of October and continues until cold weather.

Order Early. As our orders are shipped in the rotation they are received, and as we cannot delay orders received first for orders coming later on, we advise the placing of orders early.

Personal attention to each order insures you of receiving the best possible service.

Rates: 50 trees at hundred rate providing there are not less than ten of any one variety.

Terms. We will ship trees and plants C. O. D. providing 25% of the total of your order is sent in cash. If the order goes by express you pay the balance to your express agent upon arrival. If the order goes by freight you pay the balance at your bank, where you will also find Bill of Lading, which you present to your freight agent who will deliver shipment to you.

How to Remit. By Bank Draft, Express Money Order, Post Office Money Order or Registered Letter.

Boxing and Packing Free. We box and pack all shipments without charge.

Guide for Amateur Fruit Growers

This is an excellent book for anyone who has not made a study of fruit growing and wishes to be informed how to grow fruit successfully. This book deals with only common practices and simple methods adopted by practical planters. A splendid book for the amateur.

Price 25c. postpaid.
### Planted Maloney Trees and Avoid Disappointment

**Planted Maloney Trees and Avoid Disappointment**

Maloney Bros. & Wells Co.,
Gentlemen:—
We are forwarding under separate cover a photograph of our orchard planted spring 1913.
Since you furnished the trees thought you would be interested in knowing they had succeeded wonderfully well—most every tree had more or less apples on this fall which were true to name, and are very much gratified with the excellent strain.

*We remain,*
Yours respectfully,
Glen Iris Orchard Co.

Highland, N. Y., Nov. 29, 1916.

**Large and Small Orders Receive the Same Attention**

Maloney Bros. & Wells Co.,
Gentlemen:—
My trees (2,847) arrived on the 4th in fine condition and were certainly a nice lot of trees. Wish to thank you for all the attention you gave my order.

*Yours truly,*
A. T. White

Milwaukee, Wls.
Nov. 16, 1916.

Maloney Bros. & Wells Co.,
Gentlemen:—
I received the 14 fruit trees in A No. 1 condition. I must say that I have never seen such clean, healthy stock before and I have handled stock from many places.

*Yours truly,*
Irving A. Gardner

Glens Falls, N. Y.
Nov. 6, 1916.

**Maloney’s Broad Guarantee**

It Proves That We Recognize and Accept Our Responsibility to the Fruit Grower

**WE GUARANTEE** all trees and plants purchased from us to be true to name. If any stock does not prove true to name and as represented by us, we will make good your loss or damage any time within ten years after date of purchase. If for any reason, we cannot agree on adjustment, we are each to appoint an arbiter who shall choose a third party and we shall accept the award of the majority as binding on us. We guarantee our stock to reach our customers in good growing condition, and to be free from San Jose scale, Peach “Yellows” or other injurious pests or pests. Our guaranty means something to you, for it is backed by a firm with a capital of $60,000.00 and an established national reputation extending over thirty years. If any mistake occurs on our part in regard to stock shipped to you, tell us about it. (It is up to you to be satisfied.)

| 33d Year | 400 Acres | Capital $60,000 |
Freight and Express Rates

First class large size trees can be sent from Dansville, N. Y., to any of these points by freight for less than 1c. per tree. Small orders should be sent by express which can be done for about 2c. per tree. Add this to our price and you know just what your trees will cost delivered to your station.

Planting Directions

Important. Read Carefully

Preparation of the Soil.—Prepare a rich deep bed of mellow soil, and have the land sufficiently drained to relieve the roots from standing water. For best results the land should be in as good condition as is required for a crop of wheat, corn or potatoes.

On new, fresh land, manuring will be unnecessary, but on land more or less run down, fertilizers must be applied either by turning under heavy crops of clover, or well decomposed manure. Such preparation of the soil will furnish a nourishment which is absolutely necessary to insure success.

Pruning the Tree is a matter of great consequence. The illustration here shows the correct way to trim trees for planting, do not be afraid that you are pruning too severely for you are not; this is the proper way for best results.

Planting—Make the holes large enough to admit the roots without cramping or bending, and deep enough to set the trees to their natural depth. Fine surface soil should be used for covering the roots and this should be carefully worked among them. If the ground is dry, it is well to pour in some water when the hole is partially filled. See that the ground is firmly and solidly packed over all parts of the roots, so that there will be no opportunity for dry air or frost to enter and deprive the roots of the full benefit worked in the natural protection. Omission to pack the earth solidly is the most frequent cause of failure in planting nursery stock. We cannot too firmly impress upon you the importance of packing the earth firmly around the roots. Fill the holes full enough to be even with the surrounding surface after the fresh earth settles. Always remove the labels when planting. If these are left until the trees are grown, the connecting wire often cuts into and destroys the tree or branch to which it is attached. Never use manure in contact with roots. When planting dwarf trees, set them low enough to cover the stock upon which they are budded.

After-Care—Grass should not be allowed to grow about your trees or plants. The ground should be cultivated for a space of at least a foot outside the roots. This should be done every 10 days the first year during May, June and July. If the ground is poor it should be enriched with surface applications of manure.

The following table shows how the different varieties of apples should be set.

Permanent Varieties

| Amer. Blush  | N. W. Greening |
| Baldwin     | R. I. Greening |

An Apple Orchard with Maloney Upland Trees a Good Investment

For the convenience of our customers, we have printed in heavy type the names of the best and most profitable varieties.

Why Planters are More Successful with Maloney Quality Trees. Because we aim from the very beginning to give our patrons the most that can be had for the money. Too many Nurserymen economize by propagating on Western grown seedlings. No nurseryman can conscientiously do this for he well knows that Western seedlings are more or less troubled with that harmful crown and root gall. We eliminate this feature by importing our seedlings from France. Any of your inspectors will tell you that trees so propagated are longer lived and will net you greater returns. It is not so surprising after all that Maloney Quality Trees are being planted by thousands in every state in the Union east of the Rockies.

Apple Trees should be planted on elevated ground rather than in a hollow or low ground, and they require fertile soil, such as is needed for corn and wheat.

Upland Grown Trees Best for Planting

We claim and can prove to your satisfaction that our upland grown trees are bigger, harder and more vigorous than those offered by others. We own our farms on which we propagate, the soil is specially fitted, it is loose and very fertile, roots penetrate deeply, develop extensively and are fine and fibrous—the richness of the soil fills them chuck full of vitality.
Summer Varieties

**Early Harvest.** Medium to large size; pale yellow; tender, with a mild, fine flavor. Tree an erect grower and a good bearer; excellent for orchard and garden; one of the first to ripen. Middle to end of August.

**Golden Sweet.** Large, pale yellow, tree a good grower and very productive. August to September.

**Red Astrachan.** Tree hardy and regular bearer, a very vigorous grower; fruit large, roundish, nearly covered with deep crimson overspread with a thick bloom; juicy, rich and beautiful. July and August.

**Sweet Bough.** Large, pale yellow; sweet, tender and juicy. Tree a compact grower and abundant bearer. August.

**Williams Early Red.** Medium sized; dark red, sometimes yellow splashed; flesh is crisp, tender, juicy and sub-acid. August.

**Yellow Transparent.** Medium size, roundish, oblate, slightly conical; skin pale yellow when fully matured; flesh tender, juicy, sprightly, sub-acid; good. August.

---

Autumn Varieties

**Alexander.** Of Russian origin. Large, deep red or crimson; flesh yellowish white, crisp, tender, with pleasant flavor. Tree very hardy. October.

**Autumn Strawberry.** Medium, streaked, tender, juicy, fine, vigorous and productive. September to October.

**Duchess of Oldenburg.** Summer. Medium size; red striped; flesh white, juicy and excellent flavored. Trees are natural dwarf growers and make fine fillers; require small root and branch space. Crops nearly always large. One of the important varieties for all sections north of Mason and Dixon line. Aug. and Sept.

**Fall Pippin.** Very large, yellow, tender juicy and rich. Fine in all localities; tree vigorous. September and October.

**Gravenstein.** An attractive and excellent quality apple. Fruit large and uniform in size, skin thin, tender, greenish yellow overlaid with dark red. September to November.

**Maiden’s Blush.** Large, flat; pale yellow with a red cheek; beautiful; tender and pleasant, but not high flavored. Tree an erect grower, and a good bearer. A valuable market apple. September and October.

**Pound Sweet.** A very large, round, yellow russet apple, very sweet and rich. Tree a vigorous, rapid, upright grower; valuable. October and November.

**Pumpkin Sweet.** Very large; yellowish russet, sweet and rich. Valuable. October and November.

---

Winter Varieties

**Baldwin.** This is the leading commercial variety in the American markets. It is to apples what Elberta is to peaches and Montmorency is to cherries. One of the best storage apples for export and trade. Thousands of barrels of this fruit are exported to England annually. Baldwin is planted extensively and succeeds wonderfully well in all states east of the Mississippi. No variety yields larger crops, bears shipment better or is more attractive in color size and shape. It is highly esteemed for an eating and cooking apple. Fruit large, bright red, crisp, juicy and rich. Trees vigorous, upright and productive. For a commercial orchard, it can be relied upon. If ever in doubt what kind of apples to plant, select Baldwin. It should be in every orchard. December to March.

**Bellesflower.** Adapted to the northern and middle states; highly esteemed for its excellent dessert qualities. October to February.

**Ben Davis.** Is hardy and attractive, succeeds wherever apples are grown. There is no apple that has more flavors on account of its hardiness, productiveness, beauty and endurance in shipping. It is excellent for cooking.

**Delicious.** No new variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red, flesh fine grained, crisp and melting, juicy with a delightful aroma; of very highest quality. A splendid keeper and shipper. Tree one of the hardiest. November to April.

**Fameuse.** (Snow Apple). Medium size; deep crimson; flesh snowy white, melting and delicious, one of the finest dessert fruits and valuable for market; a good baking apple. October to December.

**Gano.** An improved Ben Davis, adding to the good qualities of that variety a much handsomer fruit of deep, dark red, that brings a ready sale in market. December to March.

**Gilliflower.** (Black.) An old dessert apple; tree a good vigorous grower and a reliable cropper. October to February.

**Grimes’ Golden.** Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. Tree is very hardy and productive, and one of the best fillers, as it comes into bearing very early. December to April.

**Hubbardston Nonesuch.** Large, striped yellow and red; flesh yellow, juicy and tender, with an agreeable flavor of acidity and sweetness; of the finest quality and very valuable; strong grower. November to March.

**Jonathan.** A beautiful red apple, highly flavored and of excellent quality, being tender, juicy, spicy, and rich—a splendid family sort and highly profitable for market. Tree long-lived, productive, and an early bearer. Will keep well without special care and also stand much handling. November to January.
**King.** (King of Tompkins Co.) When you see in the market apples of extraordinary size, beautiful red in color, specimens that attract the attention of everybody who passes by, you may know that these are the King apple. November to January.

**Mammoth Black Twig.** Resembles a large Winesap. Dark red. If a late winter apple is desired you will make no mistake in adding it to your list. December to April.

**McIntosh Red.** An exceedingly valuable, hardy, attractive apple; good size; nearly covered with red. Flesh white, fine, very tender, juicy and refreshing. Tree hardy, vigorous, a good annual bearer—comes into fruiting early, yielding large crops. Do not overlook McIntosh when selecting varieties for commercial and orchard planting; has no superior as an early winter apple. October to January.

**Newtown Pippin.** Medium to large; yellow; delicious flavor; a long keeper. Known throughout Virginia as Albemarle Pippin. November to May.

**Northwestern Greening.** A round, large, attractive, greenish yellow apple; flesh fine grained, juicy, firm, good quality. October to April.

**Northern Spy.** A hardy, large, red, winter apple. Flesh juicy, rich, crisp, tender, aromatic, of good flavor. Tree very healthy, strong grower, rugged. Blossoms very late, escaping frosts. Dec. to Mar.

**Rhode Island Greening.** This apple has a recognized standing, both in domestic and foreign markets and sells readily for good prices. Size large. Flesh yellowish, firm, fine grained, crisp, tender, juicy, sprightly sub-acid, very good. Skin grass-green to yellow, sometimes with brownish-red blush. Tree large, strong, vigorous, wide spreading. Ripes in December, keeps until April.

**Rome Beauty.** Large, round; mottled and striped in different shades of red; flavor and quality way above the average; appearance and size are its valuable points. Fine quality for use and for handling make it popular with consumers and dealers. Dec. to Mar.

**Roxbury Russet.** Medium to large. Surface rough, greenish covered with russet. Dec. to May.

**Smokehouse.** Fruit medium to large, uniform size and shape. Color yellow or greenish mottled with rather dark red, sometimes almost hidden by dark red stripes; flesh yellow, not in the least mealy; plenty of juice; quality the finest. Tree a quick and large grower, bears young, often producing a barrel to a tree when five years old. Bears every year, crops uniformly heavy. Dec. to Apr.

**Stayman’s Winesap.** Medium to large, attractive; green and yellow, almost hidden by dark red stripes; flesh yellow, not in the least mealy; plenty of juice; quality the finest. Tree a quick and large grower, bears young, often producing a barrel to a tree when five years old. Bears every year, crops uniformly heavy. Dec. to Apr.

**Sutton Beauty.** Tree vigorous, upright, spreading, fruit uniform in size and shape, fine grained, crisp, tender, very good. Color bright red striped with carmine. Nov. to Mar.

**Tolman Sweet.** Medium size; color, light yellow; flesh white, firm, rich, and very sweet. Excellent for winter baking. This is the old favorite, highly prized for baking, etc. Productive, an early bearer, long keeper. Nov. to Apr.

**Twenty Ounce.** Very large, yellow striped, red, fine quality apple; good keeper. Tree vigorous grower, productive. Oct. to Jan.

**Wagener.** (Red Winter Apple.) Wagener is one of the most beautiful winter apples ever grown. It is of the highest quality, the flesh being crisp, tender and aromatic. We know of no apple possessing greater beauty or of finer quality than the Wagener. Dec. to May.

**Wealthy Apple.** Fruit large, roundish; skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; quality very good. This variety is particularly valuable for cold climates because the tree is very hardy. Wealthy is being planted largely for commercial purposes as a filler in many sections. Oct. to Jan.

**Winter Banana.** Fruit large size, perfect in form; golden yellow, and beautifully shaded and marbled with bright crimson red; flesh lemon-yellow, fine grained, sub-acid, rich, aromatic flavor, and of the highest quality. A good keeper. Nov. to Jan.

**Wolf River.** Fruit is very large, some specimens weighing 27 ounces; flattened, conical, highly colored. An excellent cooking apple. Sept. to Dec.

**York Imperial.** The fruit is of medium size, skin yellow and almost wholly covered with two shades of red, the darker one disposed in distinct stripes. Splendid variety for Pennsylvania. Nov. to Feb.

**Best Hardy Crab Apples**

**Hyslop.** Fruit large, deep crimson; produced in clusters; flesh yellow, sub-acid; and popular on account of its large size, beauty and hardiness. Oct.

**Transcendent.** This is probably one of the best of all crab apples, is popular over the entire country. The fruit of this crab is held in great esteem by housewives for making jelly. Fruit bright yellow, striped with red. Sept. to Oct.

**Maloney Hardy Upland Cherries—Transplant Best**

*For the convenience of our customers,* we have printed in heavy type the names of the best and most profitable varieties.

*How to Plant*—For your information cherry roots must not be given much sun or wind exposure—either are just as harmful as a heavy frost. You would not think of leaving them out over night uncovered. It is just exactly as necessary to protect them from sun and wind.

---

**18,600 TREES AND PLANTS**

Gentlemen: We are just finishing planting the 18,600 trees and bushes purchased from you. All were received in first class order and we are justly proud of their appearance, both before and after planting.

Please accept thanks for your painstaking selection, also advice given for planting same and the many courtesies extended by your firm.

Very thankfully yours, J. J. ALLEN, M. D.

You Are Welcome to the Benefit of Our Extensive Experience and Wide Knowledge of the Fruit Business
Sour Cherries

**Dyehouse.** A hardy and valuable cherry. The earliest cherry of fine quality. Often bears at two years old, and has the appearance of being covered with a purple cloth, such is the abundance of the fruit. Has the smallest pit of any cherry known. For tarts, pies and especially for canning it has no superiors among cherries. Early June.

**Early Richmond.** This is one of the most valuable and popular cherries and is unsurpassed for cooking purposes. This hardy cherry fruits on young trees soon after planting. It is a good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish spreading head exceedingly productive. Fruit is medium size, round and dark red. The flesh tender, juicy, and sub-acid. Ripens in June.

**English Morello.** Without doubt one the most valuable of this class. Easily grown, generally producing a heavy crop. Fruit dark red, quality good, with a rich, acid flavor; late. Tree very hardy, for extremely cold latitudes. August.

**May Duke.** Large, red, juicy and rich; an old, excellent variety; vigorous, productive. June 15.

Montmorency. A beautiful, large, red cherry; much larger and firmer than Early Richmond, and fully ten days later in ripening. Being extraordinarily prolific and very hardy, it can be recommended as a variety of great value. Valuable for canning and preserving. A patron writes that six years ago he planted fifty Montmorency cherry trees from which he has just harvested $150 worth of fruit. One acre of Montmorency cherries, owned by a neighbor, has returned an average annuity of over $600 for the last ten years. This cherry is in great favor wherever cherries are grown. With such a heavy demand for this variety, we would suggest that you order early. Last of June.

**Olivet.** A new Duke of French origin. Unlike most others of this class, it is said to be very early and to ripen over a long period. Fruit very large. June.

**Ostheime.** An hardy cherry from Russia. It has been tested in the severest winters of Minnesota, and has been found perfectly hardy. Fruit large. July 15th.

**Wragg.** Much like English Morello. More productive and excels in size, yield and quality. One of the hardiest Cherries and has produced annual crops at the northernmost limit of Cherry culture. August.

Sweet Cherries

**Black Tartarian.** This fine old variety produces immense crops of very large, purplish black fruits of mild, sweet, jelly-like consistency. The tree makes a beautiful, erect growth. Late June and early July.

**Bing.** This valuable new black cherry succeeds everywhere. Tree very thifty and upright grower, very hardy and productive, flesh very solid, flavor of the highest quality, a fine shipping and market variety. It is one of the most delicious sweet cherries. This valuable cherry should be followed by Lambert, which is later in ripening. Both are grand cherries. July.

**Governor Wood.** One of the best cherries; very large, light yellow, marbled with red; juicy, rich and delicious; tree healthy and a great bearer. Tops well on the trees; vigorous. Last of June.

**Lambert.** A fine sweet variety originating in Oregon, and one of the largest of all Cherries, dark purple red, turning almost jet black when ripe. Flesh firm, rich, juicy, tree rugged, strong grower and an enormous bearer. The growing of the sweet cherry is a great industry only fairly well begun. A great shipping and market variety. Late July.

**Napoleon.** Tree medium size, erect with roundish head, fruit borne generally in twos, very large oblong cordate, light lemon yellow with red checks in the sun. Flesh very hard, brittle, colorless, reddish at the stone. Good, excellent bearer. Ripe about June 20th.

**Schmidt’s Biggarreau.** The fruit is of very large size, of a deep mahogany color. The flesh is dark, tender, very juicy with a fine rich flavor. Fruit grows in clusters. It is an excellent shipper and brings good money on the market. July.

**Windsor.** A splendid, large, liver-colored Cherry that hangs a long time and rots but little. The flesh is remarkably firm and good, the tree very hardy and fruitful. Exceedingly valuable for late market and home use. July.

**Yellow Spanish.** Large, pale yellow, with red cheeks; firm, juicy and excellent, one of the best light-colored Cherries; vigorous and productive. Last of June.

**Average Yield Per Acre For Cherries**

19,200 lbs. @ 8c = $1536.00

Buy direct and save the middleman’s commission. It’s the businesslike and economical way.

Plant Maloney Hardy Upland Peach Trees for Best Results

For the convenience of our customers, we have printed in heavy type the names of the best and most profitable varieties.

**Peach Growing is Today a Great Industry**, in all probability more peaches are being planted annually than any other fruit. The comparative ease with which Peach trees may be cultivated, their freedom from disease, the short period before they come into bearing, together with the wonderful demand for the fruit, and the facility with which it may be shipped to markets, make peach growing extremely profitable.

**Soil.** Peach trees will succeed on any kind of rich soil, but will not thrive on clay, nor damp low land.

Belle of Georgia. Very large white peach with red cheek. The flesh is white, firm and of fine flavor. Tree rapid grower and very productive. July. Free.

Carmen. Fruit large, color creamy white or pale yellow with deep blush; flesh tender, fine flavor and quite juicy; very hardy and productive every year. Aug. Free.

Crawford’s Late. Fruit of large size; skin yellow, or greenish yellow, with dull red cheek; flesh yellow; tree vigorous, moderately productive. Last of Sept. Free.

Crawford’s Early. A magnificent large, yellow peach, of good quality. Tree vigorous and very productive. Its fine size, beauty and productivity make it one of the most popular sorts; no other variety has been so extensively planted. First of Sept. Free.

Champion. Fruit large, beautiful in appearance; flavor delicious, skin creamy white, with red cheek; valuable for commercial orchards, extreme hardiness and splendid quality make it a favorite. Late Aug. Free.

Chair’s Choice. Has no superior in quality and flavor, and for profit is without a rival; large, yellow, free, rich in color, flesh very firm, ripens after Smock; great bearer. Oct. Free.

Elberta. The leader of all peaches and the greatest commercial variety on the market; 50 per cent of the peaches planted are Elberta. In all probability no peach will succeed over so wide a range of territory as this kind. It will thrive where any peach can be grown. A beautiful peach of good quality, not only the best orchard variety, but also valuable for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. It is large, yellow, with red cheek, juicy and high flavor; flesh yellow, free stone. Season medium early, following quick upon Early Crawford. Early Sept. Free.

Fitzgerald. It is one of the hardiest peaches, both in bloom and tree; very prolific, large size. First of Sept. Free.

Greensboro. A valuable variety; color greenish-white, shaded and splashed with dark red, very hardy and not so subject to rot as are most early varieties. Owing to extreme hardiness of both tree and bud we recommend it for sections where other varieties do not succeed. Late July. Free.

Hill’s Chili. Fruit medium size, oblong; skin yellow, shaded with dark red; flesh yellow; very rich and sweet. First of Sept.

Hiley. An exceedingly handsome creamy white peach of large size, with a delightful red cheek; flesh is white, tender and juicy, commercially proving one of the most profitable. Early July. Free.

Mountain Rose. Large, red, white flesh, juicy and excellent. Early August. Free.

Niagara. Tree hardy, healthy in leaf and bud and bears abundantly. Fruit large, oval, yellow with brilliant red cheek. Last of August.

Salway. Large roundish ovate; yellow, with a crimson cheek; flesh deep yellow, red at the pit; sweet, juicy, good. Late. Valued as one of the best late peaches for market. October. Free.

Smock Free (Beers Smock). Fruit large; oval; skin orange yellow, mottled with red; a good market sort. Last of September.

Yellow St. John. Of medium size, orange yellow with a red blush on sunny side; flesh tender, juicy and quality very good. Tree is a strong grower and bears heavy crops every season. Aug. 15th.

**PARCEL POST. First class 3 ft. Pear Trees can be sent by parcel post, postage prepaid, for fifteen cents each; $1.30 per 10.**

**A Pair---Upland Grown and Maloney Service**

*For the convenience of our customers,* we have printed in heavy type the names of the best and most profitable varieties.

**The planting of Pears** is on the increase, so much so that it has been difficult for us to supply the demand. This is especially true of Bartlett, Clapp's, Kieffer and Seckel which are the leaders and in the order as named.

**Soil.** Pears will succeed best in a clayey soil, although any good heavy soil will do, but avoid planting on sandy loam.
Bartlett. Large, coloring when fully ripe tan yellow with red blush; juicy, melting, highly flavored, a most delicious fruit; tree bears early and abundantly. We have sold many large orchards of this variety. The fruit ripens just at a time when there is but little competition; in fact, there is no pear ripening at the same time that is in the Bartlett class. It might surprise you to know—nevertheless it is a fact—that there are more of this variety planted than all other kinds of pears combined. Sept.

Beurre D’Anjou. This is one of the best known, most popular and profitable late pear. The tree is a vigorous grower, hardy and prolific. The pears are of large size, green in color, but often yellowing when thoroughly ripe. They are very juicy and luscious and of the best quality. For late fall and very early winter use, we have no better variety. Oct. to Jan.

Beurre Bosc. A large and beautiful russet pear, very distinct with a long neck; melting or nearly so, high flavored and delicious, bears well. Wholesale Price 29c each, $2.50 per 10; $20.00 per 100. 1 year only. Oct.

Clapp’s Favorite. This is without doubt the most productive of the pear on the market. A superb large, long yellow Pear, richly flushed, with russet-red next the sun. The flesh is fine grained, juicy, melting and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling Flemish Beauty in growth. It is as hardy as the Flemish Beauty; a fine grower and extremely productive. Our trees of this variety are exceptionally fine, for they were grown on our new farm, situated at an elevation of 1500 feet, which insures you of receiving hardy, healthy and vigorous trees, from which you are bound to get the best possible results. Early August.

Duchess D’Angouleme. A most dependable cropper, often fruiting the first season after planting. Fruit large, frequently weighing a pound. A dull greenish yellow, spotted russet, flesh white, rich and good quality. An all-around profitable market pear. Oct. and Nov.

Flemish Beauty. This fine old Pear is still one of the hardiest and most generally successful over a wide range of country, producing good crops annually of large, handsome fruit that is exceptionally good in quality. Considered one of the hardiest and best for the northwest in which location it bears great crops of perfect fruit. September and October.

Garber. One of the Japan Hybrids; larger than Kieffer; hardy, productive, early bearer; excellent for canning. September and October.

Howell. Large, yellow, with red cheek; early bearer and productive. Sept. and Oct.

Kieffer. Large, rich golden yellow, sometimes tinted red on the sun-exposed side; fair quality, excellent for canning. It has become a profitable market variety on account of its good shipping and keeping qualities. To properly ripen should remain on the trees until leaves begin to fall, then gather carefully and allow to ripen in a cool dark cellar, or other place of even temperature. The fruit is of high color and great beauty and sells more readily than fruits of better quality. October to November.

Koonce. A very popular early variety. Fruit large, yellow, one-half nearly covered with red. Does not rot at the core. Tree vigorous, hardy and upright grower. Very productive and a good shipper. July.

Lawrence. Medium to large, golden yellow, with melting, aromatic flesh. Unsurpassed as an early winter Pear. The tree is hardy, healthy and productive, bearing large crops annually. Nov. and Dec.

Sheldon. A large, round, russet and red pear of very fine quality, melting, rich and delicious. Tree vigorous, erect and handsome, bears well and should be more largely planted. October.

Seckel. A beautiful and delicious little Pear that is the standard of excellence in its class. One of the richest and highest flavored Pears known. Sept. and Oct.

Vermont Beauty. This is one of the newer varieties, but one which should not be overlooked when picking out the different kinds you want to set. The tree originated in Northern Vermont and is very hardy and thrifty. October and November.

Wildor. One of the very earliest pears, attractively colored and of excellent quality. The tree bears good crops early and annually. Early August.

To retain a customer he must be satisfied. Repeated orders spell our success.

Maloney Hardy Upland Trees Fruit Early

Plums are hardy and grow vigorously in nearly all sections, succeeding on any soil that grows good corn or potatoes. Plum trees are planted about as far apart as peaches; that is, from 15 to 18 feet apart each way. Many growers prefer to plant them closer one way than the other, and eventually to stop cultivation in one direction. If this system is used they may be placed 18 to 20 feet apart one way, and from 10 to 12 feet the other way. The trees are pruned the same way that apple trees are, when planted.

**Bradhaw.** A very large and fine early plum, dark violet red, juicy and good. Very productive; valuable for market. The tree is very hardy and vigorous. Middle of August.

**Fellemberg Prune.** A fine prune, oval; purple; flesh juicy and delicious; parts from the stone; fine for drying; tree very productive. Early Sept.

**German Prune.** Medium; oval; purple or blue; juicy, rich, fine. Tree vigorous and very productive. One of the best. September. Sells for higher prices in market on account of high quality. A leading favorite. There is no easily grown fruit that gives greater or more certain profit than the German Prune. Early Sept.

**Grand Duke.** One of the best late plums for market, as large as Bradshaw, of same color, entirely free from rot. Last of September.

**Gueii.** This is one of the newer varieties originating in New York state. The color is a dark purple. The flesh is firm, sub-acid and agreeable. Size large. September.

**Imperial Gage.** Rather large; oval; greenish; flesh juicy, rich and delicious, parts from the stone. Tree a vigorous grower; very productive and one of the best of plums. Middle of August.

**Lombard.** It is a handsome reddish plum, the flesh yellow, juicy and pleasant. It is an excellent variety and can be relied on for a crop when other varieties fail. August.

**Moore’s Arctic.** Fruit grown in clusters. Color dark blue or nearly black when fully ripe. Dr. Hoskins says this is the hardest plum he has tested. September.

**Maloney Prune.** We are offering it this year at same prices as other varieties. Season extending from September 15th until freezing weather. Color dark blue; flesh yellow and delicious; freestone; heavy annual bearer. It certainly is a marvel—just what the orchard man has been looking for.

**Niagara.** Red, large size, making an attractive appearance in market, and possesses good shipping qualities. It bears enormous crops of fruit. Tree is an upright grower, vigorous and healthy. Middle of August.

**Reine Claude.** (Bavay’s Green Gage)—Roundish, oval, greenish, marked with red in the sun; a great favorite. September.
Shipper's Pride. Large, nearly round; dark purple; quite juicy, sweet; splendid shipper and marketer; moderate grower; productive. Originated in northwestern New York. September.

Shropshire Damson. One of the favorite Damsons. Fruit oval; tree a good grower and enormously productive; fruit of medium size produced in thick clusters or groups, dark purple color, esteemed for preserving. October.

Thanksgiving Prune. Very productive, good quality and long keeper. It will keep for weeks and months after picking like an apple. It is extremely hardy, as a matter of fact, will succeed in any state east of the Rockies; absolute proof against severe winters. Mr. Maloney especially recommends this variety to you. October.

York State Prune. One of the largest, best in quality and most productive of all prunes; large size, color dark blue, covered with purple black, delicious; originated in Dansville, N. Y.; a vigorous grower and hardy. Is being planted extensively and is considered the best for commercial purposes. Last of August.

Japan Plums (Continued.)

Climax. Tree extremely vigorous, upright, with strong branches and very large leaves. Productive as Burbank, about as large and usually two or three weeks earlier. July.

Red June. The great early market Plum. Medium to large; deep vermilion red, with beautiful bloom; very showy; flesh light lemon-yellow, firm, slightly sub-acid, delightful. It is the best in quality of any of the early Japanese plums, free from rot. Ripens in early August.

Wickson. This, largest of the Japan Plums is superb in every way. The color is bright cherry-red, covered with a light bloom; the pit is small for so large a fruit, the flesh is thick, sweet, tender and rather dry, indicating good keeping and shipping qualities. The fruit sells almost on sight. September.

Japan Plums

Abundance. One of the best Japan Plums. The tree a rapid grower, healthy, comes into bearing remarkably young and yields abundantly. Fruit of medium size, large when thinned; amber, with markings of red; juicy, sweet, of good quality when well ripened. May be picked when it begins to color; will keep a long time. Aug.

Burbank. is decidedly the best of Japan varieties unsurpassed for beauty and productiveness, as well as a very hardy tree with foliage so perfect as to contribute in an essential degree to its health. One of the grand points about the Burbank is that it succeeds over a wide range of our country, and will stand the most severe winters. Fruit large, oval, with a reddish purple skin; flesh yellow, juicy and good. A good one. August.
Dwarf Fruit Trees

Dwarf fruit trees bear larger, better fruit, bear several years earlier, and produce more returns for a given space than standard trees. This is all true and there are even more important points. The low, broad heads are within reach, so that apples or pears can be easily picked. You can plant dwarf trees in your garden and still grow strawberries and most vegetables. With dwarfs some varieties will bear the first year, all will the second and bear a full crop the fourth year.

Maloney Hardy Upland Dwarf Trees are Giving Complete Satisfaction
Quince Trees

Orange. The best of the older varieties, still more extensively cultivated than any other. Every one is acquainted with the Orange quince, a good old variety that never disappoints the planter; good for home use and for market. Its large golden yellow fruit of fine quality is to be seen in more or less quantities in nearly every garden or orchard every season, as it rarely fails to produce a crop. Ripens in Oct.

Meech's Prolific. Fruit is large, orange yellow, of great beauty and delightful fragrance. Tree a vigorous grower and immensely productive. Ripens between the Orange and Champion. Last of Oct.

Champion. A large, late-ripening sort, that produces good and constant crops. One of the best for sections not subject to early frosts. Last of Oct.

Everyone Wants the Best--Maloney Upland Trees Have no Equal

Russian Apricots

Beautiful and delicious fruit. In quality and appearance is between plum and peach, combining qualities of both. Ripening early, together with its delightful flavor makes it one of the most valuable fruits. Tree hardy as the peach. Requires about the same cultivation as the peach or plum. It ships well and commands a good price in any market. For drying and canning, it has no superior. The Russian varieties are quite distinct from the other European sorts; much harder, earlier bearers and productive.

Alexander. Very hardy and immense bearer; fruit large; yellow, flecked with red; very beautiful, sweet and delicious. July.

Alexis. Very hardy and abundant bearer; yellow with red cheek; large to very large; slightly acid, rich and luscious. July.

Moorpark. One of the largest. Orange with red cheek; firm, juicy, with a rich flavor; very productive. August.

Don't Delay--Order Today--Hardy Upland Trees--It's the Only Way

Nut Trees

American Sweet Chestnut is adapted to a great portion of this country. It is valuable as a nut producing tree, timber and ornamental purposes. As high as $14.00 per bushel has been paid for American Sweet Chestnuts when first brought into New York market. $6.00 to $10.00 per bushel is the common price. A well grown American Chestnut that has passed the quarter-century mark is a gracious delight to the eye of the lover of trees, and there is a peaceful, dignified impressiveness about a grove of old chestnut trees that is good to experience.

Price, 4 to 5 feet, 50 cents each, 10 for $4.50.

Chestnut, Spanish. A handsome, round headed tree, producing abundantly, very large nuts that find a ready market at good prices.

Prices of Spanish Chestnut Trees, 4 to 5 feet, 50 cents each, 10 for $4.00.

English Walnut. A fine, lofty, growing tree, with handsome, spreading head; produces large crops of thin-shelled, delicious nuts which are always in demand at good prices. They are fairly hardy and are fruiting here in the Genesee Valley.

Price, 3 to 4 feet, 50 cents each, 10 for $4.50.

Black Walnut. The common well-known Black Walnut, the wood of which is most beautiful and valuable. It is very productive in nuts, which are liked by many.

Price, 4 to 5 feet, 50 cents each, 10 for $4.00.

Butternut. A fine native tree producing a large longish nut, which is prized for its sweet, oily, nutritious kernel.

Price of Butternut trees, 4 to 5 feet, 50 cents each, 10 for $4.00.

We will send strong trees of Apricots and Nut trees by Parcels post for 3c per tree extra.

Bargains in Little Fruit Trees

Some nurserymen are offering this size tree to planters, stating such trees are especially desirable for orchard planting.

This is an erroneous statement for such small trees do not possess much vitality. This low vitality is due soley to the fact that they were shaded in the nursery row and made a stunted growth, therefore success with trees of this character is only assured by thorough, and we might say constant, cultivation and this is expensive. Then again, if you have a dry season the first year after planting, you are very likely—owing to the low vitality—to lose a big percentage.

We desire to acquaint our patrons with the possibilities. When you see firms advertising first class trees for 10c each do not be led to believe you are getting a No. 1 tree (far be it from it). You might better add a little more money and buy 4 or 5 ft. or 5 to 6 ft. trees. However, if there are some customers who would rather nurse along the 3 to 4 ft. trees, we will supply them at the following prices.

**Plant Maloney Hardy Upland Garden Roots for Best Results**

*PARCEL POST.* Garden Roots can be sent by parcel post, postage prepaid, for one cent each extra.

**Rhubarb or Pie Plant**

*Linnaeus.* Large, early, tender and fine. The very best of all.

10 cents each, 75 cents per 10, $5.00 per 100.

**Asparagus**

50c for 25, $1.00 per 100, $6.50 per 1000.

**Palmetto.** A very early variety, even, regular size and of excellent quality. It has been tested both north and south and has proven entirely satisfactory.

**Conover’s Colossal.** Very large, makes rapid growth; planted mostly by market-gardeners; very productive.

**Holl’s Mammoth Sage.** Plants of strong growth. Leaves large, borne well above the ground. Of strong flavor and superior quality.

Price: strong 2 year roots, 10 cents each, 10 for 75 cents.

**Horse Radish.** Will stand a great deal of hardship and exist in soil year after year. Plant in deep, rich, cool soil. The yield will vary according to the soil and treatment. As high as ten tons have been secured from an acre.

Price: Strong Sets, 25 cents per 10, $1.00 per 100, $8.00 per 1000.

---

**Fall Planting**

The setting out of stock at this particular time of the year is attended by the following advantages which are abundant proof that the fall of the year is an ideal period for planting:

First: The gain of fully half a growing season over spring planting.

Second: The uniform moisture and temperature of the ground are more favorable to root formation, the root action being well established long before the ground is fit for planting in the early spring.

Third: Adverse conditions commonly prevailing in the spring, such as gardens to be made, usual and regular spring farm work, scarcity of labor, etc., are eliminated in the fall.

Fourth: We do not begin shipping until Oct. 10th. Mr. A. E. Maloney who superintends the growing, states that stock is then fully matured so as to withstand the winter weather without any protection.

If you have never done any fall planting try it this season. *The wise buyer orders early.*
Grapes

Wholesale Price of Grapes, 2 Year, Vigorous Vines, Except as Noted

2 Year No. 1 Strong Vines

PARCEL POST. Grapes can be sent by parcel post, postage prepaid, for 2c per vine extra.

Maloney Hardy Upland Grapes Bring Quick Returns

**Every city and country garden** should have a dozen or more grape vines. They do admirably trained up the side of any building, or along the garden fences, occupying but little room and furnishing an abundance of the healthiest fruit. Plant about 8 feet apart, by the fence or building. For vineyards, make rows 8 feet apart, 6 to 10 feet in rows.

**Brighton.** Red. Bunch large, well formed; berries above medium to large, round; excellent flavor and quality; one of the earliest in ripening. One of the very best shippers. Vine hardy and vigorous grower.

**Catawba.** Dark red when fully ripe. Bunch large, berries medium to large, skin thick, tough; flesh somewhat pulpy, with rich vinous flavor, of best quality for both table and wine.

**Concord.** Black. Early. Decidedly the most popular Grape in America and deservedly so. Bunch large, shouldered, compact; berries large, covered with a rich bloom, skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulpy, tender; vine a strong grower, very hardy, healthy and productive. For general cultivation the most reliable and profitable variety. Price 10c each, 75c per 10, $4.00 per 100.

**Campbell's Early Black.** Strong grower, with large, healthy foliage, productive; its keeping and shipping qualities are equalled by no other early grape. Ripens with Moore's Early. Bunch and berry large, glossy black with blue bloom, sweet and juicy, seeds few and small, part readily from the pulp. Stands at the head of early black grapes for quality.

**Delaware.** Red. Bunches small, compact, shouldered; berries rather small, round, skin thin, light red; flesh very juicy, sweet, spicy and delicious.

**McKinley Early** (New White). Strong grower; bunches large, compact and handsome, berries large and oval like Malaga; green at first, turning to yellow when fully ripe; very sweet. Extra quality; a good shipper; remarkable keeper; will hang on vines sound and perfect for weeks after ripe. Ten days earlier than Niagara with the richest flavor of any Grape on the market.

**Moore's Early Black.** Bunch large, berry large round with heavy bloom vine exceedingly hardy. Its earliness makes it desirable for an early market. Its hardiness particularly adapts it to Canada and northern portions of the United States; succeeds admirably in the south.

**Niagara White.** Occupies the same position among the white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe. Skin thin but tough; quality much like Concord.

**Worden.** Black. Bunch large, sometimes shouldered, compact; berries very large, skin thin.

**Grape Vines at a Bargain**

**12 Strong 2 Year Vines for 75 Cents**

4 Concord, 1 Campbell E. Blk, 2 Catawba 3 Niagara, 2 Worden

All 12 year old, first class Grape Vines for 75 cents, regular price being $1.80.

24
Maloney Hardy Upland Currants are Enormous Producers

Black Champion. Bush vigorous and productive; fruit averages above medium; pulp nearly sweet, mild flavored. A desirable variety for general culture.

Cherry. Bush vigorous, stocky and compact; cluster rather short, with short stems; fruit averages large; color fine, bright red; berry thin skinned, juicy and fine flavored. One of the most productive of the large Currants.

Diploma. Large, solid and of good quality, very attractive appearance, both clusters and berries being very large. Vigorous grower and the most productive red currant.

Fay. (Fay's Prolific). Bush vigorous but not quite so strong a grower as Cherry; cluster medium to long, with rather long stems; color darker; and berry averages large; juicy and less acid than Cherry. An excellent commercial variety.

Perfection. In color it is a beautiful bright red, a size larger than the Fay; clusters average longer and the size of berries are maintained to the end of the bunch. It is one of the most productive Currants we have ever known.

Wholesale Price of Perfection, 2 yr., 15 cents each, $1.00 per 10, $9.00 per 100, $75.00 per 1000.

Red Cross. A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. It is exceedingly productive, and the currants are of large size. Further than this, the fruit is far sweeter than ordinary currants.

White Grape. Bush vigorous, somewhat spreading, productive; clusters long; berries large to very large, averaging large; of very attractive color, mild flavor and good quality. A good table variety.

Wilder. (President Wilder.) Bush upright, vigorous; clusters above medium length; berries large to very large, averaging large; bright red; excellent, with a mild sub-acid flavor. Ripens early and remains bright and firm until very late. Because of its exceedingly vigorous growth, great productiveness, high quality and remaining good so long after ripening, we recommend this as one of the best red currants, both for table and market.

Blackberries
Wholesale Price of Strong Plants Best Selected Varieties
50c per 10 $2.50 per 190 $18.50 per 1000

Maloney Hardy Upland Berries are Enormous Producers

Blower's. Claimed to be the hardestd, most productive, of finest quality and to bring the highest market price.

Eldorado. The vines are very hardy and vigorous, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

Mersereau. Remarkably strong grower, upright, producing stout, stocky canes. An enormous producer of extra size berries, which are brilliant black and retain color; extra quality; sweet, rich and melting, without core. Ripens very early.

Snyder. Extremely hardy, enormously productive; medium size, no hard, sour core; sweet and juicy. Ripens early.

Raspberries
Wholesale Price of Strong Plants Best Selected Varieties
10 for 45c 100 for $2.00 1000 for $13.00

Cumberland New Black. This berry with its greatly superior size combines the equally valuable characteristics of great firmness, splendid quality and wonderful productive-ness. The plants are entirely hardy, very vigorous and healthy.

Cuthbert Red. Large, productive, attractive. It yields bountifully of large and beautiful bright red berries, which are easily picked and command good prices.

Kansas Black. Is a strong, vigorous grower, standing extremes of drought and cold, and bearing immense crops. Early.

Plum Farmer Black. This very large and productive black raspberry has been thoroughly tested in western New York where it is a great favorite for market or home use. Ripens early and quickly.

Marboro (Red). A very profitable, early market variety with large, light crimson fruits, of good size and flavor. The crop covers a period of four or five weeks in ripening.

Gooseberries

Downing. Is the largest and best of all native American varieties. The value of Downing lies in its large size, fine quality, beautiful appearance, vigorous growth, and freedom from mildew.

Red Jacket. An American seedling of large size, smooth, prolific and hardy, of best quality. Has been well tested over a wide extent of territory by the side of all the leading varieties, and so far the most free from mildew, both in leaf and fruit, of them all. A wonderful cropper.

Price for all varieties of Gooseberries named above, strong 2 year bushes, 15 cents each, 10 for $1.20, 100 for $8.50.

Price 50c for 10, $1.00 for 25, $2.25 per 100, $15.00 per 1000.

Plant Maloney Hardy Upland Roses for Best Results

**Blanche Roberts.** Pure white, large and full, buds very beautiful. A strong grower and a desirable variety.

**Bessie Brown.** New. Very large, shell-shaped petals of creamy white, faintly flushed with pink, make up into flowers of rare beauty.

**Baby Rambler.** A dwarf (bush). Just the thing for beds and borders and for edging walks.

**Coquette des Alps.** White, slightly shaded with carmine; strong grower and a great favorite. This variety is very valuable; it continues to give a profusion of blossoms for weeks after general varieties have finished.

**Frau Karl Druschki.** Snow Queen. The finest white Hybrid Perpetual Rose, with large, full flowers of splendid form. It is marvelous in its beauty in half opened bud and in the pure white of the full opened bloom.

**General Jacqueminot.** Brilliant crimson; large and fine. Beautiful in bud and a universal favorite.

**Killarney.** One of the most popular of our garden roses. It is perfectly hardy, a robust grower; color sparkling, brilliant, imperial pink.

**La France.** Rich satiny peach, changing to deep rose; large and full. A constant bloomer. The sweetest of all.

**Magna Charta.** Pink and carmine; very large and full; a profuse bloomer. Fragrant. Free grower.

**Mad. Caroline Testout.** One of the most popular of the Hybrid Teas for the garden. This is the rose which has made Portland, Oregon, famous. The flowers are extra large, and of a brilliant, shining pink.

**Marshall P. Wilder.** Bright cherry carmine, very fragrant and one of the freest bloomers, vigorous.

**Perle des Jardines.** A rich shade of yellow, fragrant—one of the best yellow roses, bush exceptionally hardy.

**Prince Camille de Rohan.** Very dark velvety crimson, changing to intense maroon.

**Paul Neyron.** The largest of all. Deep rose color. A free bloomer and vigorous grower.

Climbing Roses

**Crimson Rambler.** New. Of Japan origin. Very vigorous, growing eight to ten feet a season after it is well established. Entirely hardy and extremely prolific. It blooms in clusters. Of a beautiful crimson color and lasts a long time. It is a jewel.

**Baltimore Belle.** Pale blush, nearly white. Bloom in clusters.

**Dorothy Perkins.** A most beautiful shell-pink rambler. In hardiness, nothing more could be desired. Flowers are very double of large size, usually two inches across and borne in loose clusters.

Maloney Hardy Upland Shrubs Succeed Well in All Sections

Shrubs are useful in bringing out the full beauty of a house. Splendid effects can be had by planting an assortment of flowering shrubs on the lawn, not at all difficult to arrange them, for a group planted promiscuously here and there, has a splendid effect, and at our wholesale prices, enables you to improve the home at a very reasonable price.

**Althea.** A large shrub, sometimes trimmed into tree form, that blooms freely in August or September, when almost every tree is out of bloom. Vigorous grower and succeeds everywhere. Also called Rose of Sharon. We can furnish double varieties in these colors: Althea Double Purple, Red, Pink and White.

**Azalea, Mollis.** This little plant is literally covered with bloom in April or May. Flowers are large and of a variety of colors in shades of red, yellow and orange. **50c each; $4.00 per 10.**

**Azalea, Ghent.** Handsome and distinct shrub from Japan; unequalled for brilliancy and variety of color, while flowers are not so large as in the Mollis, the color is more delicate. **75c each; $6.50 per 10.**

**Butterfly Bush.** Seems to attract butterflies in large numbers. It produces long, graceful stems which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is often ten inches long. It blossoms from early summer till frost; splendid for cutting. **35c each.**

**Barberry Purple.** Similar to Common Barberry only that the foliage is purple.

Maloney shrubs are hardy, upland grown at an elevation of 1500 feet; varieties listed are the hardiest, most beautiful and lasting, thrive everywhere and need little care or attention when once established. Year after year they grow larger and more beautiful.

**Barberry Thunbergii.** A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the fall. All Barberries make very fine hedges.

**Calycanthus.** (Sweet-scented shrub.) The wood is fragrant; foliage rich; flowers are of chocolate color, having a peculiarly agreeable odor.

**Deutzia, Gracilis.** Pure white flowers in June. Two feet high when fully grown.

**Deutzia, Crenata, Double-Flowering.** A hardy, vigorous shrub that does not suffer from insects or diseases and early in the season is fairly covered with very showy double white flowers that on the edge are slightly tinged with rose. Handsome, desirable shrub.

**Deutzia, Lemoinei.** Dwarf, the flowers are large pure white and produce freely.

**Deutzia, Pride of Rochester.** Blooms in May. Double, white, tinted with rose on the edge.

**Fringe Purple or Smoke Tree.** A very elegant and ornamental large shrub, with curious, hair-like flowers of a pinkest brown color which sometimes literally cover the tree and remain all summer. **35c each; $3.00 per 10.**

Maloneys Grow the Trees and Plants They Sell
**Shrubs (Continued)**

**Fringe White.** A popular and much admired shrub of moderate growth, and rounded form, with large, dark green, glossy leaves, and long drooping panicles of beautiful white fringe-like flowers.

**Forsythia Fortunei** (Golden Bells.) Deep yellow flowers in great profusion in April.

**Golden-Leaved Elder.** The best of all the colored shrubs. A plant of this bush in a bed, or a border, or on the lawn, is a conspicuous feature, the foliage being as yellow as gold.

**Hydrangea Paniculata Grandiflora.** Absolutely hardy; thrives in all soils; grows rapidly and blossoms profusely. The flowers are pure white, afterward changing to pink, and are borne in large pyramidal trusses often more than a foot long and six to eight inches in diameter. Begins to bloom early in August, and continues to bloom for several weeks. Whenever known it is considered to be one of the finest flowering shrubs. 30c each; $2.50 per 10.

**Hydrangea, Arborescens Grandiflora Alba** (Hills of Snow)—This hardy American shrub is the very finest addition to this class of plants. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished. 35c each.

**Lilac, Purple.** An old favorite; purple flowers.

**Lilac, White.** A well known favorite.

**Mock Orange.** Flowers white, deliciously perfumed. Derives its name owing to flowers resembling orange blossoms; a delightful substitute for that noble flower.

**Perennial Phlox.** Hardy and succeeds in any climate. Can be planted in large groups on the lawn or in a row along the border of the roadway. Red, pink, or white.

**Quince, Japan.** Dark green foliage, and showy deep, scarlet flowers of good size.

---

**GOLDEN LEAVED ELDER IN BLOOM**

**Spiraea, Billardi.** A hardy, free growing shrub. During July every branch and twig is tipped with a spike of beautiful blood-red flowers 4 to 6 inches in length. A distinctive and beautiful flower and shrub.

**Spiraea Callosa Rosea.** Has large panicles of deep rosy blossoms; grows freely and blooms nearly all summer; fine.

**Spiraea Dougasi.** Has spikes of beautiful, deep rose-colored flowers in July and Aug.

**Spiraea Van Houcetti.** This is undoubtedly the best of the spiraeas. The cut shown is a fair one and shows it in full blossom. The blossoms are white. Do not pass it by.

**Syringa, Common.** Large, white flowers; very hardy.

**Syringa, Golden.** Large, deep yellow flowers; bush hardy. 35c each.

FOR THE HOME GROUNDS

8 Hardy Shrubs, Worth $2.05 for $1.50

1 Calycanthus
1 Deutzia, Gracilis
1 Hydrangea, P. G.
1 Mock Orange
2 Spiraea Van Houcetti
1 Weigelia, Rosea
1 Syringa, Common

---

Nashua, N. H., Nov. 18, 1915.

Gentlemen:—
Shrubs arrived in fine condition, am much pleased and hope to send you a larger order in the spring.

Sincerely,
MRS. GEORGE E. BAKER.
Shrubs (Continued)

**Snowball, Common.**

**Rhododendron (Rosebay)**—No shrub in Nature's garden the world over, can compare with this. $1.00 each.

**Upright Honey Suckle (pink).** Pink flowers which contrast beautifully with the foliage.

**Weigela, Candida.**
The flowers are of the purest white, blooming in June, and all summer. Hardy.

**Weigela Eva Rathke.**
With showy, bright red flowers borne freely during the summer.

**A BUSH OF SPIRAEA VAN HOUTTEI IN FULL BLOOM**

**Weigela, Floribunda.** The flowers are dark crimson, with white stamens somewhat like Fuchsia flowers. It blooms in the spring and in the fall.

**Weigela, Rosa.**
This is one of the most charming shrubs in cultivation; it cannot be too highly recommended; the flowers are large and of deep rosy color, and are borne in great profusion.

**Hydrangea Tree Form**
Same as Hydrangea P. G. except in tree form, being grafted on a Hydrangea stalk about 3 ft. high. When in full bloom are very attractive. Price 75c each.

Ornamental Trees

Maloney Hardy Upland Ornamental Trees Are Incomparable

NO home grounds are really complete without some shade and ornamental trees. The shade of Maples and the dark covers under Evergreens are never forgotten by people who in childhood played and lived under the trees. A comparison of a home without shade trees about it, to one with, is the best argument we can advance.

Magnolia, Speciosa—Flowers smaller, lighter in color than Soulangeana and remain on the tree longer than any other variety. 4-5 ft. $2.00 each.

Magnolia, Soulangeana—Chinese variety, dwarf grower, bears showy white and purple flowers, cup-shaped, and three to five inches in diameter. 4-5 ft. $2.00 each.

MALONEY QUALITY SUPREME

Maloney Bros. & Wells Co.,

Gentlemen:

I wish to thank you for the fine lot of trees I received in this last order. I have dealt with several nurseries in the past but never received such a fine lot as these, as to branches, roots and uniform size. Several of my neighbors also agree with me. You can look for more orders from me later.

Thanking you for the satisfactory way you concern does business, I beg to remain

Yours very truly,

E. T. Smith.

NOTHING will add more value to your property than ornamental trees, plants, shrubs and vines. If you want to sell your home or estate you will find that these improvements will add immensely to its value and beauty. We offer a large variety of ornamental trees, plants and shrubs to choose from. They are all healthy and vigorous growers.

American Elm. A natural spreading and drooping tree of our own American meadows and forests. It is very attractive in any suitable location, is entirely hardy and easily transplanted. There are more Elm trees planted along our streets and highways than any other one variety. This is on account of its dense green foliage, which spreads out from overhead, covering a suitable space of ground in proportion to the size of the tree, which makes it the finest shade tree in the world.

Wholesale Price, 8 to 10 ft., 75 cents each, 10 for $6.50, 6 to 8 ft., 50 cents each, 10 for $4.50

VALUE OF SYSTEM

Maloney Bros. & Wells Co.,

Gentlemen:

The box of trees came yesterday in excellent condition. I was much pleased with the stock and the unusual fine amount of undamaged roots. The packer did well to get so nearly a perfect record where I had ordered such a mixed variety.

Very truly yours,

Oliver A. Lothrop, M. D.

Each Order Receives the Personal Attention of a Member of Our Firm. Satisfaction Guaranteed or Money Refunded
Catalpa Bungei. (Umbrella Catalpa.) Grafted on stems 6 to 8 feet high, it makes an umbrella shaped top without pruning. Perfectly hardy, and flourishes in almost all soils and climates. Leaves large, glossy, heart-shaped. A very desirable ornamental.

Wholesale Price of Trees, 6 to 8 feet, $1.00 each.

Catalpa Speciosa. One of the most rapid growers. Valuable for timber, fence posts, railroad ties, etc., possesses wonderful durability. Large, heart-shaped, downy leaves, and compound panicles of white flowers.

Wholesale Price of Trees, 6 to 8 feet, 40 cents each, 10 for $3.50.

Cut-Leaved Weeping Birch. This noble tree is not only the most popular of the weeping trees, but it is decidedly the best. Its tall, slender, yet vigorous growth, graceful branches, silvery white bark, and delicately cut foliage, present a combination of attractive characteristics rarely met with in a single tree.

Wholesale Price of Cut-Leaved Weeping Birch, 5 to 6 feet trees, $1.00 each.

Horse Chestnut, White Flowering. The well-known European species; very handsome; has magnificent spikes of white flowers. As a lawn tree or for the street it has no superior.

Wholesale Price, 6 to 8 feet, 75 cents each, 10 for $6.50.

Maple, Ash-Leaved. (Box Elder). A fine, rapid-growing variety, with handsome, light green foliage and spreading head; very desirable for street planting and succeeds in many sections where other varieties do not thrive.

Wholesale Price 8 to 10 feet, 75 cents each, 10 for $6.50.

Maple, Norway. This is one of the hardiest ornamental shade trees, and one of the most beautiful. It makes more of a wide spreading tree than the sugar maple.

Wholesale Price 8 to 10 feet, 75 cents each: 10 for $6.50; 6 to 8 feet, 60 cents each, 10 for $5.00.

Maple, Silver Leaved or Soft. Foliage bright green above and silvery underneath. An exceedingly rapid grower. Makes a large tree. A very satisfactory tree to plant in large quantities.

Wholesale Price of Silver-Leaved Maple, 8 to 10 feet, 60 cents each, 10 for $5.00; 6 to 8 feet, 50 cents each, 10 for $4.00.

Maple Sugar or Rock. This native tree of ours is a universal favorite for street planting, and desirable everywhere. It is considered a slow grower, but is long-lived.

Wholesale Price 8 to 10 feet, 75 cents each, 10 for $6.50; 6 to 8 feet, 60 cents each, 10 for $5.00.

Maple, Wier’s Cut-Leaved. One of the most remarkable and beautiful trees, with cut or dissected foliage. Its growth is rapid, shoots slender and drooping, as graceful as cut-leaved birch.

Wholesale Price 8 to 10 feet, 75 cents each; 10 for $7.00; 6 to 8 feet, 60 cents each, 10 for $5.00.

Mulberry, Downing. This tree is not alone valuable for the large refreshing berries it bears, but is very handsome as a lawn or street tree. This should be in every yard or garden.

Wholesale Price, 4 to 5 feet, 50 cents each, $4.50 per 10.

Mulberry, Russian. Very hardy, vigorous grower, very productive, fruit black and of medium size.

Wholesale Price, 5 to 7 feet, 35 cents each, 10 for $3.00.

Mulberry, Tea’s Weeping. The most graceful and hardy weeping tree in existence. Forms a perfect shaped head, with long, slender, willowy branches, drooping to the ground.

Wholesale Price, 5 feet, $1.25 each.

Poplar, Carolina. This tree takes front rank among the best of the poplars. It is one of the most rapid growers among shade trees, frequently growing eight feet during one season and thus making fine shade in two or three years. It is very desirable when planted at the roadside, in parks or along rivers and streams. It has an advantage over other shade trees because it will grow in any kind of soil.

Wholesale Bargain Prices for Carolina Poplar trees: 10 to 12 feet high, 50 cents each, 10 for $2.50, 100 for $20.00. 8 to 10 feet high, 25 cents each, 10 for $2.00, 100 for $17.50. 6 to 8 feet high, 20 cents each, 10 for $1.50, 100 for $14.00.

Poplar, Lombardy. A well known variety from its tall spire-like form. Where it is desired to mark a boundary line, or where there is an entrance to a driveway these trees are very effective. We have some beautiful specimens and can recommend them highly. They transplant safely, grow quickly and for many purposes are attractive and desirable.

Wholesale Price, 8 to 10 feet, 40 cents each, $3.50 per 10, $30.00 per 100.

Thorn, Double Pink. Double pink or rose flowers, with white tips.

Wholesale Price for first class Trees, 4 to 5 feet, 75 cents each.

Thorn, Paul’s Double Scarlet. Flowers deep crimson, with scarlet shade; very double.

Wholesale Price of Trees, 4 to 5 feet, 75 cents each.
Hedge Plants

California Privet. A vigorous-growing variety, of fine habit, thick, glossy, nearly evergreen leaves. Of all ornamental hedge-plants this is the most highly prized. If cut to the ground one or two years after planting, it makes a very thick hedge right from the bottom, sending up many strong shoots. The leaves are a rich green, and will remain on the plants up to Christmas, and if they are a little sheltered they will keep green almost all winter. Should be planted about eight to ten inches apart to give best results.

Strong plants, well branched, 12 to 24 inches, 10 cents each, 75 cents per 10, $4.00 per 100, $30.00 per 1000.

Strong plants, well branched, 2 to 3 feet, 15 cents each, $1.00 per 10, 5.00 per 50, $40.00 per 1000.

Barberry Thunbergii. A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the fall. All Barberries make very fine hedges.

Strong plants, 18 to 24 inches, well branched, 25 cents each, $2.00 per 10, $12.00 per 100.

Evergreens

American Arbor Vitae. A beautiful native tree much used for hedges, screens, singly on lawns and in tubs for porches.

Wholesale price, 2 to 3 feet, 30c each.

Colorado Blue Spruce. Foliage is blue and sage—that distinctive color which is so rare in the east. Its silver foliage glistening in the sunlight, makes it surpass in beauty any other evergreen.

Wholesale price, 2 to 3 feet, $1.50 each.

Irish Juniper. Junipers are handsome evergreens, always neat and clean. This variety grows exceptionally slim and commonlike. A general favorite for cemeteries and other planting.

Wholesale price, 2 to 3 feet, 75c each.

All Evergreens Balled and Burlapped

Hardy Climbing Vines

Ampelopsis Veitchi (Boston Ivy.) This is one of the finest climbers we have for covering walls, as it clings firmly to the smoothest surface, covering it closely with overlapping foliage, giving it the appearance of being shingled with green leaves.

Wholesale price of strong 2 year plants, 35 cents each.

Clematis Henryii. A vigorous grower and a free bloomer, producing its large pure white flowers constantly during the summer and early autumn. The best large-flowered variety.

Wholesale price of strong 2 year plants, 35 cents each.

Clematis Jackmannii. The flowers are large, intense, rich, velvety violet-purple, and are produced in such masses as to form a cloud of bloom. This is the best known Clematis, and should have credit of the great popularity now attending this family of beautiful climbers.

Wholesale price of strong 2 year plants, 35 cents each.

Clematis Paniculata (Sweet-scented Japan Clematis.) Of very rapid growth, quickly covering trellises and arbors with handsome, clean, glossy foliage. The flowers are of medium size, fragrant, pure white, borne in immense sheets in September, when very few other vines are in bloom.

Wholesale price of strong 2 year plants, 25 cents each.

Dutchman’s Pipe. Brownish flowers, resembling a miniature pipe; splendid for archways or verandas.

Wholesale price of strong 2 year plants, 50 cents each.

Halleana (Hall’s Japan Honeysuckle.) An almost evergreen honeysuckle of the greatest value, being hardy and of strong growth. The flowers are fragrant, of a pure white, changing to yellow.

Wholesale price of strong 2 year plants, 25 cents each.

Wisteria, Chinese Purple. A most beautiful climber of rapid growth and producing long pendulous clusters of pale blue flowers.

Wholesale price of strong 2 year plants, 35 cents each.
